# Bendable LED Strip

[www.neslight.com](http://www.neslight.com)

# Bendable LED Strip

Bendable LED strip, widely used for channel letter, backlighting.  
Can be curved freely and fixed on the uneven surface.  
Every 3-LEDS cuttable without damaging the rest strips.  
With 3M adhesive tape on the back which can be fixed easily.  
Easy installation, low power consumption, super-bright.  
Energy saving and environmental friendly.

# Bendable LED Strip

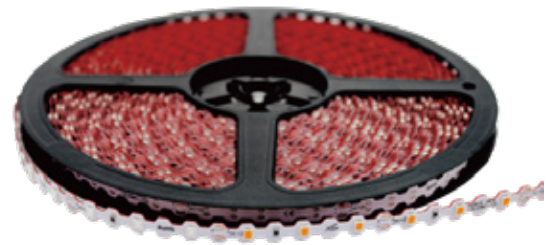

LED Strip

## C7160 S

### FEATURE

1. 2835 LED with copper bracket, Low light decay
2. High viscosity adhesive
3. Low power product ultra-low temperature, no heating
4. The Unique S-type zigzag pattern allows to bend easily
5. IP20 and IP67(Spray glue) are available
6. 100M per roll
7. Approved by CE / ROHS / BIS

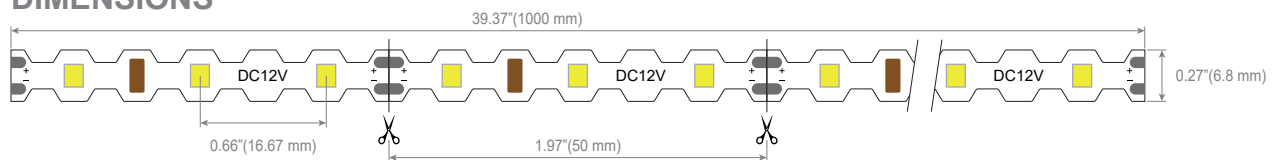

### APPLICATION

Apply the depth with 20-40mm for the 3D channel letter/ Mini letter/ Resin letter

### SPECIFICATION

Part No	Led type	Dimension	LED/M	Voltage	Power(W/m)	Brightness	Color
C7160	2835	1000 x 6.8mm	60pcs/m	DC 12V	6.48W	16-18 lm	R / G / B / W / Y / O / Ice blue / Rose red

### DIMENSIONS

## C754 S

### FEATURE

1. 2835 LED with copper bracket, Low light decay
2. High viscosity adhesive
3. The Unique S-type zigzag pattern allows to bend easily
4. IP20 and IP67 (Spray glue) are available
5. 100M per roll
6. Approved by CE / ROHS / BIS

### APPLICATION

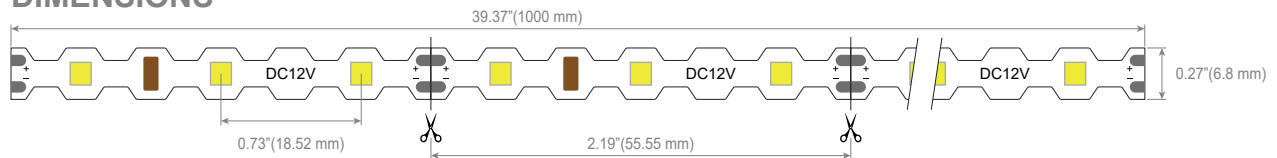

Apply for the depth above 40mm for Super letter / Boundless letter / Stainless steel letter

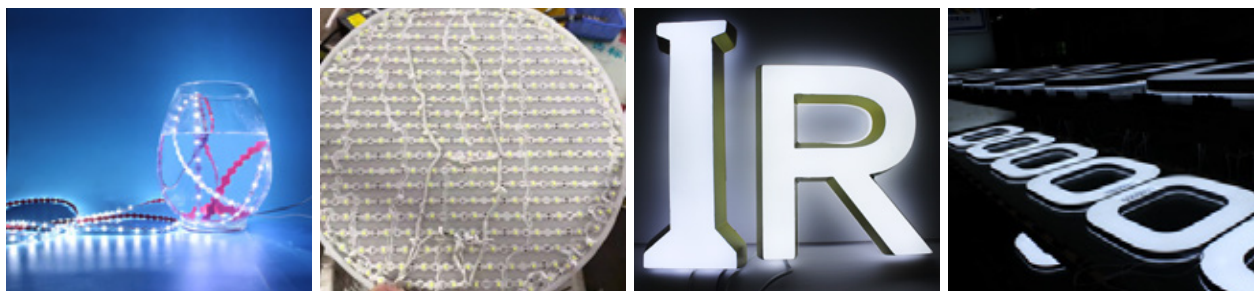

### SPECIFICATION

Part No	Led type	Dimension	LED/M	Voltage	Power(W/m)	Brightness	Color
C754	2835	1000 x 6.8mm	54pcs/m	DC 12V	9W	13-15 lm	W / R / G / B / Y / Rose red

### DIMENSIONS

## XSY760 S

### FEATURE

1. High brightness with 2835 led, Copper bracket, Stable, Low light decay
2. The S-type zigzag pattern allows for bending the strip to make bends, curves and to form shapes
3. LED spacing is 16.67mm
4. IP20 and IP67(Spray glue) are available
5. 100M per roll
6. Approved by CE / ROHS / BIS

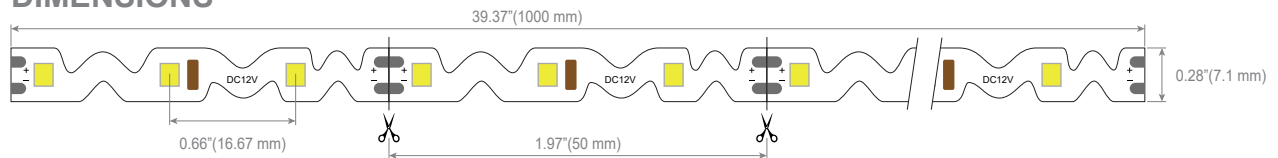

### APPLICATION

Mini letter/Resin letter/Super letter Etc. With inside depth of 2-3cm

### SPECIFICATION

Part No	Led type	Dimension	LED/M	Voltage	Power(W/m)	Brightness	Color
760 LP	2835	1000 x 7.1mm	60pcs/m	DC 12V	6W	12-14 lm	R / G / B / W / Y / O / Ice blue / Rose red
760 HP	2835	1000 x 7.1mm	60pcs/m	DC 12V	8.64W	16-18 lm	R / G / B / W / Y / O / Ice blue / Rose red

## XSY654 S

### FEATURE

1. Single led and single cutting circuit design, even if the LED lamp bead is damaged, only one will be damaged,
2. Every led is cut-table and without waste
3. 5.8mm good folding resistance and flexible use
4. Low power product ultra-low temperature, no heating
5. IP20 and IP67(Spray glue) are available
6. 100M per roll
7. Approved by CE / ROHS / BIS

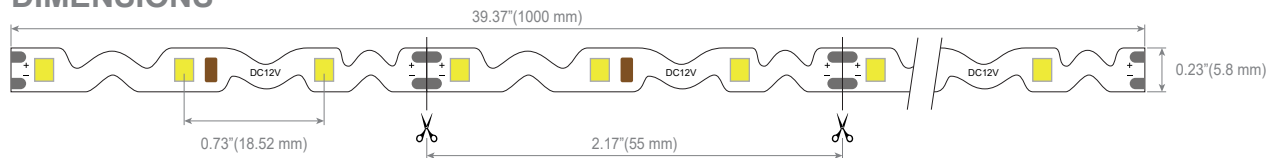

### APPLICATION

Mini letter/Resin letter/Super letter Etc. With inside depth of 2-3cm

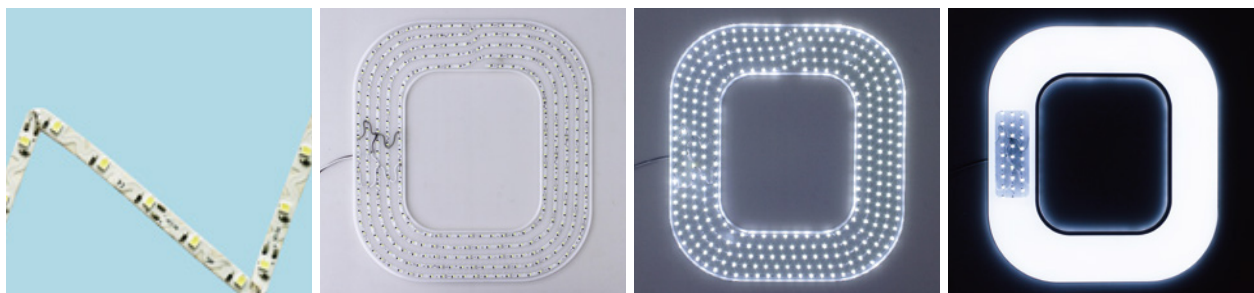

### SPECIFICATION

Part No	Led type	Dimension	LED/M	Voltage	Power(W/m)	Brightness	Color
654 LP	2835	1000 x 5.8mm	54pcs/m	DC 12V	6.5W	13-15 lm	R / G / B / W / Y / O / Ice blue / Rose red

## XSY5858 S

### FEATURE

1. Every led is cuttable with 12v vlotage ,no waste
2. With terminals, no manual welding is required
3. Ultra high brightness,same cost to obtain higher brightness
4. Can be easily folded to be layout in the illuminated letter shell
5. IP20 and IP67(Spray glue) are available
6. 15M per roll with connector line
7. Approved by CE / ROHS / BIS

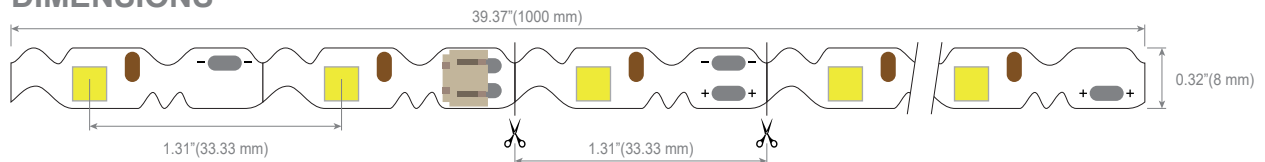

### APPLICATION

3D letter/ Super letter/ Boundless letter/Stainless steel letter

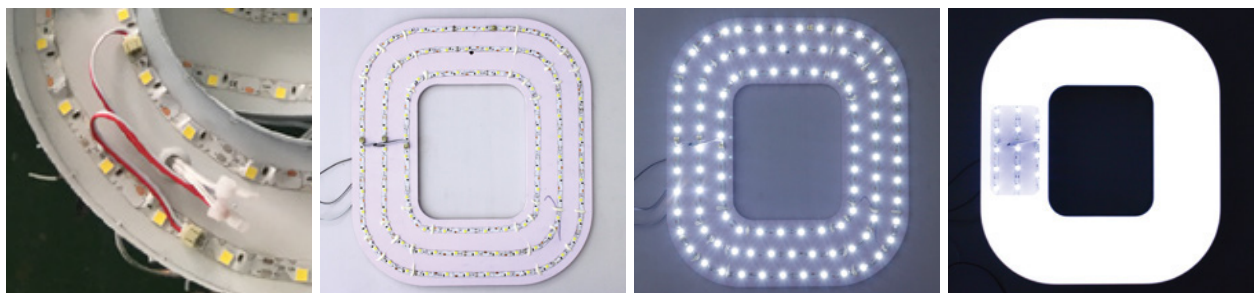

### SPECIFICATION

Part No	Led type	Dimension	LED/M	Voltage	Power(W/m)	Brightness	Color
XSY5858	5858	1000 x 8mm	30pcs/m	DC 12V	15.8W	56-60 lm	4,500K / 10,000K / 14,000K

## XSY120 S

### FEATURE

1. Every 3 led is cuttable with 12v vlotage
2. High cost performance and all color are available
3. Can be easily folded to be layout in the illuminated letter shell
4. IP20 and IP67(Spray glue) are available
5. 40M per roll
6. Approved by CE / ROHS / BIS

### APPLICATION

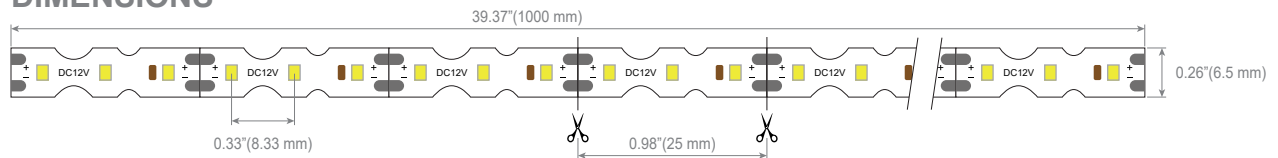

Ultra thin light box/all kinds of customized patterns,edge outline

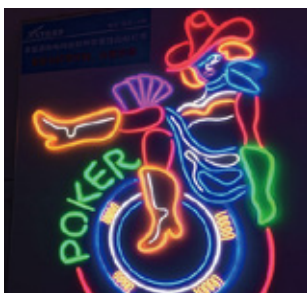

### SPECIFICATION

Part No	Led type	Dimension	LED/M	Voltage	Power(W/m)	Brightness	Color
XSY120	2835	1000 x 6.5mm	120pcs/m	DC 12V	7.2W	7-8 lm	R / G / B / W / Y / O / Ice blue / Rose red

# Straight LED Strip

LED Strip

## XSY Straight 2835 LED strip 8mm

### FEATURE

1. High brightness with 2835 led, Copper bracket, Stable, Low light decay
2. Excellent color rendering, RA>80 or 90
3. 2 oz copper PCB for good heat dissipation
4. 10M per roll with 3M 9448A tape
5. 3000k 4000k 6500K all are available
6. Custom wattage, 2W / 6W / 8W / 10W

### APPLICATION

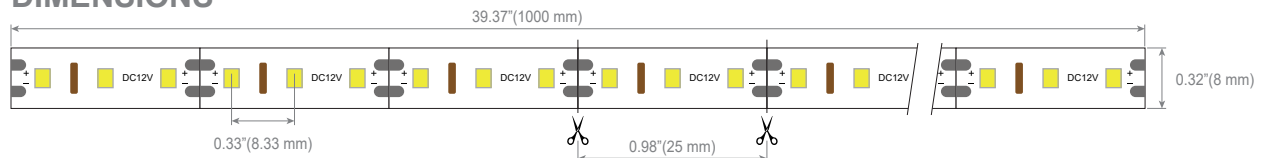

Mainly used for lighting, hotel, cabinet lights and decoration

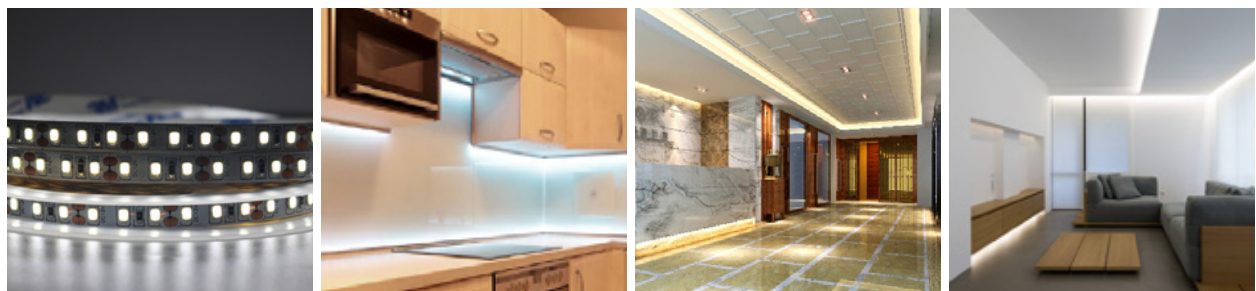

### SPECIFICATION

Part No	Led type	Dimension	LED/M	Voltage	Power(W/m)	Brightness	Color
XSY2835	2835	1000 x 8mm	120pcs/m	DC 12V	10.5W	26-28 lm	3,000K / 4,000K / 6,500K

# Straight LED Strip

LED Strip

## Three generations of separate fully waterproof flexible neon lights

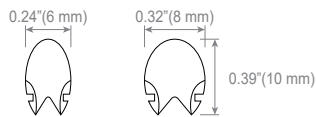

### FEATURE

- 1,Carve out the patterns you want on the acrylic board
- 2,Paste the light strip into the slot,color could be R/G/B/W/Y/Rose red
- 3,Press this silicone strip into this groove
- 4,Fixed installation groove,easy operation
- 5,Excellent shading and light transmittance

### APPLICATION

Make any Neon led signs , such as Donald Duck, Mickey Mouse or ,so as to attract customers
